THE AMERICAN FLEET

Is Said to Be Moving About Porto Rico.

SPANIARDS ARE NERVOUS.

Evidently Remember Their Fate In Manila Bay.

SPANISH FLEET NOT SIGHTED.

Governor General of Porto Rico Thinks the Forts There Will Be Able to Defeat Captain Sampson and His Six Great Fighters.

Madrid, May 10.—A cable dispatch from the captain general of Porto Rico says he has information that the American fleet is approaching.

Very Significant Statement.
Washington, May 10.—There is the best authority for the statement that the navy department does not expect to hear from Admiral Sampson within several days. The authority for this statement is fully acquainted with Admiral Sampson's plans.

Martial Law to Be Extended.
Madrid, May 10.—Martial law has been proclaimed in Seville and Saragossa, and will be gradually extended throughout the country. The most significant fact of the hour is the rapid development of the influence of the military party.

The Spaniard Escaped.
Madrid, May 10.—Governor General Macias of Porto Rico cables the government that a Spanish merchant steamer was pursued by an American armed transatlantic liner, but escaped with the aid of Spanish men-of-war.

Forced to Retreat.
Madrid, May 10.—Blanco says an American cruiser and torpedo boat attempted to force Cardenas channel. After a half hour's engagement with three Spanish gunboats the Americans were forced to retreat.

Whereabouts of the Montgomery.
Port-au-Prince, Haiti, May 10.—It is reported that the United States cruiser Montgomery is off the Mole St. Nicholas, apparently watching the Windward passage between Haiti and Cuba.

No Spanish Fleet Sighted.
Cape Haitien, Haiti, May 10.—Mr. Julius C. Tucker, United States consul at Martinique, says there is no foundation for the report that a Spanish fleet has been sighted off that island.

Americans Cause a Mass.
Madrid, May 10.—An impressive mass was held in the church of St. Joseph for the repose of the souls of those slain at Cavite. The church was filled with sailors in uniform.

Good Fighting Spirit Prevails.
Madrid, May 10.—Macias wires from Porto Rico that a good fighting spirit prevails there, thanks to the munitions brought by Alfonso XIII and strong fortifications.

COMMODORE DEWEY

Recommends That a Provisional Government Be Established at Manila.
Hongkong, May 10.—Dispatches signed by Commodore Dewey have just been sent to Washington recommending that the surrender of Manila be demanded and that a provisional government for the Philippines be established pending the settlement of the war with Spain.

His proposal is for a commission to take control of the government. He suggests that he be named as one of the commissioners. The government would be continued upon much the same lines as exist now.

He asks that sufficient troops be sent him in the event that his plan is adopted to maintain order. If his suggestion is favorably received by the president and the cabinet, it is probable that our two consuls, Williams of Manila and Wildman of Hongkong will be asked to serve on the commission.

Some such solution, it appears, must be found immediately. Food supplies in Manila have run short already. It is estimated that the town has enough to last two weeks. No more can be brought in.

Commodore Dewey's fleet has completely invested the city by water, and the insurgents control all land approaches. It is impossible for the inhabitants to add to the present supply of food without the consent of the American commodore. He is in absolute control.

Preparing to Carry Troops.
Washington, May 10.—Evidence of the preparations being made for carrying troops to the Philippines were apparent at the war department. The officials had before them a list of between 15 and 20 large vessels whose

home port is on the Pacific coast, and were making preparations looking to their charter as transports. Their aggregate capacity is more than ample for the purposes of the government. Should all be secured the war department will be able to send cavalry troops to the Philippines in case this is deemed desirable.

For Aggressive Action.
Washington, May 10.—The cabinet decided on an aggressive campaign against the Spanish fleet at Porto Rico. Five thousand troops will be sent. It expects important news soon from Sampson, who has moved against Porto Rico. It is not believed he will encounter the Spanish fleet at Porto Rico. Later on Havana will be attacked from rear by the United States and insurgent troops, and by the fleet in front.

Thanks From Gomez.
New York, May 10.—A commissioner sent to Gomez's camp has returned here, bringing the Cuban leaders' formal official thanks in behalf of Cuba to the United States. A letter to President McKinley and one each to General Miles and Admiral Sampson, also thanks to the American people. Gomez wants rifles, food, clothing and United States troops, in the order named. Armed and supplied, he promises to drive the blockaded Spaniards out in six months.

To Protect British Subjects.
New York, May 10.—In response to urgent appeals from Cuban and foreign residents at Cienfuegos, Consul Dent has succeeded in inducing the agent of the Atlas company to allow the steamer Adula to proceed thither to rescue them. Similar appeals are being received from Santiago and Manzanilla, whither two large sailing vessels have gone. Two more British warships have gone to join the Pearl for the purpose of protecting British subjects in southern Cuban ports.

South American Cable Cut.
Washington, May 10.—Word came to the navy department that the cable had been cut between Montevideo and Rio Grande do Sul, thus cutting off all communication along the east coast of South America below the first and last named points in the south of Brazil. It is possible that Spanish emissaries have cut the cable to conceal some naval demonstration or movements of Spanish ships in that quarter of the world.

Killed and Wounded.
Hongkong, May 10.—The surgeon of the Castilla says that Admiral Montonojo was wounded. The captain, chaplain and 90 others were killed and six were wounded on the Castilla. One hundred and fifty were killed and 90 wounded on the Reina Cristina, Admiral Montonojo's flagship. Five were killed and 29 wounded on the Don Juan de Austria. Four were killed and 50 wounded on the Don Alonzo de Ulloa.

An Ohio Man Named.
Washington, May 10.—The president named the following as assistant adjutant generals with the rank of captain: Charles R. Miller of Ohio, William Astor Chanler of New York, Irvin Hewitt of New York, Walter L. Bouve of Massachusetts, Fred M. Alger of Michigan, James G. Blaine, Jr., of Maine, and W. B. Allison of Iowa.

Ready to Go to the Philippines.
San Francisco, May 10.—California's quota of volunteers is now in San Francisco. Two battalions of infantry and one battery of artillery arrived from the interior of the state Monday, making up the complement of troops to be mobilized with the regular army at the presidio for service at the Philippines.

Cabinet to Be Reconstructed.
Madrid, May 10.—The queen regent consulted with Senor Montero Rios, president of the senate, who advised a reconstruction of the cabinet. It is increasingly probable that the cabinet will be reformed with Senor Gamazo included, after the lower house has adopted the indemnity bill.

Willing to Enlist Now.
Chickamauga National Park, Ga., May 10.—The order of the secretary of war to the effect that recruits and enlistments may be made so as to terminate at the close of the war with Spain has stimulated applications for the regular army, and the applications are now very numerous.

Suspicious Looking Vessels Near.
Madrid, May 10.—A cable dispatch has been received here from the captain general of Porto Rico saying that three suspicious looking vessels are hovering in the offing. He adds that he has confidential information to the effect that the United States fleet is approaching Porto Rico.

Kingston, Jamaica, May 10.—Spaniards are trying to provision the fortifications of eastern Cuba before the blockade begins. Local shipping merchants have received large orders for food from Santiago and Manzanillo.

ONLY UNSELFISH WAR.

America Sets an Example Before the World.

WHAT INGERSOLL OBSERVES.

No Great Honor In Whipping the Former Owner of Half the World, but the Most Supreme Joy Is of Duty Done.

Anderson, Ind., May 10.—Robert Ingersoll said on the Cuban affair: "I am for this war. It is the only war in the history of the world that is unselfish, absolutely noble and for the benefit of the down-trodden, the starved and the people of another race."

"It is natural for a man to defend himself—the birds do that. But nothing is nobler than to defend the weak when they are right. Back of this war there are no hatreds, no desires for revenge—but there are tears of pity and mercy aroused to redress the wrongs as becomes justice. Spain herself is a victim. She has been ruled by religion. She is a theological bankrupt."

"The natural home of the Inquisition; her bigotry made her cruel, her ignorance made her bigoted, and now the former owner of half the world sits amid the ruins of her former grandeur, broken and impoverished, yet still enjoying cruelty, happiest when killing bulls and persecuting honest people. Of course, there is no great honor in whipping Spain, but joy is the result of duty done."

Colonelcy Offered McKee.
Indianapolis, May 10.—The colonelcy of the First regiment, made vacant by the accident to Colonel Pennington of New Albany, which will prevent him being active for three months, and then barring him from service in the army, was offered to General McKee, and it is believed he will accept it if he is not appointed brigadier general, which, at this time, seems improbable.

A Double Tragedy.
South Bend, Ind., May 10.—Frank Harrington fatally shot Mrs. Vahlert, a widow with whom he boarded, because she refused to marry him. He then blew out his own brains.

What Indiana Will Do.
Indianapolis, May 10.—Indiana will send two regiments of infantry and one light battery to Chickamauga as soon as they are mustered in.

TO CERTAIN DEATH.

Ice Bridge Over a Defile Collapses Beneath a Throng of Klondikers.

Victoria, B. C., May 10.—The ice covering a stream in a defile near Crater lake gave way under the passing throng of Klondikers, and that more than a score of men were precipitated into the water and carried to certain death beneath the river's frozen coating.

Dr. J. F. Frizelle of Los Angeles, who brings the news, passed the scene only a few hours after the calamity occurred.

It was on the other side of the summit between Linderman and the long lake at a point in the canyon, some 14 miles above Stonehouse, where an ice slide over a mountain stream has been utilized as a path for sleds by the fortune-seekers.

A number of men were advancing in almost unbroken rank, each hauling a heavy laden sled, when there was a sudden crash.

The ice opened for 30 feet or more and in an instant 22 men with their supplies were whirled down under the smooth surface of the stream to drown without even the chance of battling for life. The names of the victims are unknown.

Produced a Curious Effect.

London, May 10.—The full truth about the success of the Americans in the Philippines has produced a curious effect in the house of commons. It is as if a new world-potent had appeared, a new force for upsetting all previous calculations as to the equilibrium of nations. Members who were most enthusiastic about the American cause see that new developments are ahead. The few Spanish sympathizers, on the other hand, are appalled at the evidence of Spain's incompetence, while proud of the valor displayed by individual Spaniards.

Cubans to Be Armed.
Washington, May 10.—The house passed the senate bill authorizing the army to feed Cubans and arm people in the island of Cuba.

Spaniards Are Arrogant.
Hongkong, May 10.—The Spaniards at Manila are still arrogant, and are unlikely to surrender until the city is blown to pieces.

State of Siege Proclaimed.
Madrid, May 10.—A state of siege has been proclaimed in Catalonia.

A RUSH ORDER.

Cleveland Concern Will Furnish Rubber Blankets For Volunteers.

Cleveland, May 10.—The Cleveland rubber works has just received a rush order from the United States government to furnish 15,000 ponchos for the volunteer army.

The ponchos are light rubber blankets, 72x45 inches, and are adapted to three uses. They can be used as blankets, as capes, or four of them may be laced together and into a tent.

It is the intention of the government to furnish all the volunteers with these blankets, as they will be especially serviceable in Cuba during the rainy season. Another order for 50,000 ponchos will probably be given the company within a few days.

Messrs. Warner and Swazey shipped to various coast forts the first installment of the new telescopic sights they have been making for the big guns. Lieutenant Montgomery, United States army, inspected the new instruments, and has pronounced them all right. The contract for these telescopic sights is the first given to an American firm, they having heretofore all been made in England.

The New Cruiser.

On Board the Flagship Brooklyn Off Fort Monroe, Va., May 10.—Commodore Schley and his staff watched with great interest from the bridge of the flagship the arrival of the new cruiser New Orleans. She came up Hampton Roads at a pretty lively gait, and about 10 a. m. anchored about three miles distant from the squadron. The New Orleans is in command of Captain Folger, and when she dropped anchor here and saluted the commodore's flag became one of the flying squadron.

Mother and Children Suffocated.

Seneca Falls, N. Y., May 10.—Mrs. Habel and two children were suffocated by a fire that occurred at their home here. Mr. Habel occupied an upstairs room with three children, while Mrs. Habel, with the two children, slept downstairs. Habel was awakened by smoke and succeeded in saving the three children who slept with him, but was unable to save the others.

Death of a Rich Man.

Denver, May 10.—Walter Baron von Richthofen is dead of appendicitis. He was born in Breslau, province of Silesia, Prussia, in 1850, and entered the Prussian army when the war broke out with Austria in 1866. He served in the Franco-Prussian war, after which he came to Denver, where he amassed a fortune in real estate speculation.

To Appeal to United States.

Dublin, May 10.—There was a demonstration near Westport, County Mayo, to protest against "the indifference of our brutal English rulers toward starvation in Ireland." It was resolved to start a national appeal to the president and congress of the United States.

Glaser Ends All.

Bay City, Mich., May 9.—Charles Glaser, ex-comptroller of West Bay City, shot himself through the breast and died 15 minutes later. Glaser was recently indicted by the county grand jury on charges of forgery and embezzlement. He was to have been tried this week.

No Infringement.

Washington, May 10.—The United States supreme court decided the case of Boyden Power Brake company versus the Westinghouse company holding there has been no infringement of the patent of the Westinghouse company by the Boyden company.

Summer Cottages Burned.

Gloversville, N. Y., May 10.—Over 100 cottages at Scandaga park, Fulton county, a popular summer resort, 15 miles north of here, have been destroyed by fire, probably of incendiary origin. The cottages were all frame structures built closely together.

Recess of Congress.

Washington, May 10.—Representative Dockery (Dem.) has introduced a joint resolution proposing a recess or June 6 until July 19.

Allen Succeeds Roosevelt.

Washington, May 10.—The president nominated Charles H. Allen of Massachusetts to be assistant secretary of the navy.

Mail Facilities For Army.

Washington, May 10.—The senate has passed a bill providing for mail facilities in the army.

Piqua's New Postmaster.

Washington, May 10.—John W. Morris was appointed postmaster of Piqua, O.

Treasury Statement.

Washington, May 10.—The statement of the condition of the treasury shows: Available cash balance, \$214,291,706; gold reserve, \$180,250,277.

Here's a Pointer For Spain.

Sydney, May 10.—The Oceanic company's steamer Moana carries 500,000 sovereigns (\$2,500,000) to San Francisco.

LICENSE UPON BANKS.

Life Insurance Companies Also Looked After.

WAR FUNDS PROVIDED FOR.

Indications Are That Capital Instead of Labor Will This Time Be Called Upon to Furnish the Sinews of War.

Washington, May 10.—When the finance committee adjourned consideration of the war revenue bill had been almost entirely completed, although there were some puzzling problems still unsolved, one of which was the manner of dealing with proprietary medicinal articles. There will probably be a uniform tax on all of them.

The committee has decided to place a license upon banks at the rate of \$100 a year, and upon brokers at the rate of \$50, but has not yet determined whether the professions shall be licensed or not.

On life insurance companies the rate has been increased fivefold, being made 10 cents on every \$100, and it is estimated that this increase will add about \$1,000,000 in revenue.

The provision for an inheritance tax and for a tax on bills of lading were both adopted, as were the provisions for taxing all dealings in futures, including bucket shop operations.

The bill as it will be reported will contain a provision requiring that a memorandum be made of all deals of this character, however small, and that a 2-cent stamp be placed upon this memorandum.

Have Something to Learn.

Washington, May 10.—The war department has learned with some dismay from the reports of its officers engaged in mustering and recruiting the volunteers in the different states that very few of the national guard officers have ideas as to the equipment required for troops in the field that conform in any measure to the standard which hard practice and experience have established for the United States army.

An Adjournment Resolution.

Washington, May 10.—Representative Dockery of Missouri, a minority member of the house committee on appropriations, has introduced a concurrent resolution declaring that when the two houses adjourn on Monday, June 6, they stand adjourned until 12 o'clock m. on Tuesday, July 19, 1898.

Guard Their Movements.

Washington, May 10.—The fact that the Alfonso XIII has arrived at Porto Rico without knowledge of her departure having leaked out is an evidence that the Spanish authorities are able to guard the secrecy of their naval movements much better than our own people are able to do.

Washington, May 10.

The president sent a message to congress detailing Dewey's victory and recommending that congress thank the commodore. Prompt favorable action was taken. A bill was also passed making the commodore a rear admiral.

To Fort Wrangle.

Vancouver Barracks, Wash., May 10.—General Bartram, commander of the department of the Columbia, has issued an order directing Captain Borgardus Eldridge, Fourteenth infantry, stationed at Skagway, Alaska, to proceed with one company of infantry to Fort Wrangle. This order is occasioned by reports of wholesale robberies and hold-ups at Wrangle by thugs and gamblers.

Collided With a Female.

Tacoma, May 10.—While returning from Edison with a bicycle party, Secretary C. W. Mock of the Tacoma school board was run into by an unknown woman and both parties were thrown from their wheels. Mr. Mock was unconscious when picked up and has since died. The woman mounted her wheel and rode away.

People Subdued.

Lugano, Switzerland, May 10.—According to the latest news received here from Milan, Italy, the rising of the people there appears to have been mastered. Reinforcements of troops have been pouring into the city all night long. Trouble has occurred at Treviso, Verona, Padua and Brescia.

John Jacob Astor Named.

Washington, May 10.—Among the army nominations by the president were the following, to be inspector general with rank of lieutenant colonel: John Jacob Astor of New York, Charles A. Whittier of New York and Curtis Guild of Massachusetts.

THE NEWS.

The report sent out yesterday in regard to the defeat of the American fleet was a canard.

In attempt to land men at Cardenas the American vessels had an engagement with several Spanish gunboats.

Volunteer troops have been ordered to mobilize at San Francisco, Chickamauga, Mobile, New Orleans and Washington.

One regiment and a troop of cavalry from Kentucky will go to Chickamauga and one regiment of infantry to Washington.

Upon the recommendation of the President by special message Congress passed resolutions thanking Admiral Dewey for the victory of Manila.

The Spanish forts in Cuba have assumed a more warlike attitude and show a disposition to fire on American warships at every opportunity.

A dispatch received by the BULLETIN at 11:40 this morning says Montejoe was reported killed at Manila by the populace, and that there are riots everywhere.

An expedition started for Cuba last night from Port Tampa, Fla., with two companies of the Fourth infantry and 70,000 rifles and 200,000 rounds of ammunition for the Cubans.

The whole State will hear with regret of the death of Major Stanton, long known as the poet laureate of Kentucky. Major Stanton was a native of Maysville, but for many years has made his home at Frankfort, where he died. At one time he was editor of this paper, and those who remember him best pronounce him a man of varied attainments, a poet and a journalist, a politician and a philosopher, and over all, a kind friend and an honest man. His memory will long endure among those who loved him Peace to his ashes!

On a Long Jaunt.

The Portsmouth Foundry and Machine Shops made a shipment to Seattle Saturday morning of two car loads of fine mouldings. It is the complete outfit for a steamer for the Yukon river and includes boilers, engines, pumps and all pipes and fittings. The hull of the boat is ready to receive the machinery and the steamer will run up the Yukon to the Klondike.

Horses Wanted.

Mr. Joe Kindig, of York, Pa., will be at Mose Daulton & Bro.'s stable, Maysville, Ky., on Monday, May 16th, and will pay the highest market price for good, sound horses and mares from four to six years old, well broken and in good health. Bring in good ones and get the money for them. Don't forget the date.

CAPTAIN GEORGE COLLIER is now engaged in the restaurant business at Kansas City.

Discovered by a Woman.

Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for consumption, and was so much relieved on taking first dose, that she slept all night; and with two bottles, has been absolutely cured. Her name is Mrs. Luther Lutz. Thus writes W. C. Hammick & Co., of Shelby, N. C. Trial bottles free at J. James Wood's drug store. Regular size 50c. and \$1. Every bottle guaranteed.

HENRY T. STANTON.

A Short Sketch of the Life of Kentucky's Famous Poet, Soldier and Former Editor of This Paper.

Major Henry T. Stanton, poet, soldier and editor, brief mention of whose death at Frankfort was made yesterday, died at his home in that city at 11 o'clock Sunday in the sixty-fourth year of his age. Major Stanton had been in declining health for three years from Bright's disease, the immediate cause of his rather sudden death being paralysis of the heart. His last serious illness has lasted only about ten days, and, while his family had been summoned, the end was not deemed near. During a short sleep after a restless night his breathing suddenly became labored and he passed quickly and peacefully away.

The funeral occurred from the Ascension Episcopal Church of Frankfort at 11 o'clock this morning. The services were conducted by the Rev. H. H. Sneed, of Georgetown, assisted by Mr. Frank Gilmore, of Crescent Hill, interment in the local cemetery. The active pall-bearers were selected from the younger friends of the family, while some of the older distinguished Louisville and Frankfort friends of the deceased were selected as honorary pall-bearers.

Major Stanton was a man of world-wide reputation. His deeds of valor during the civil war are recorded on the pages of history. His poems are to be found in every civilized land. His most famous productions are "Moneyless Man," "Type and Fame," "Fallen," "Jacob Brown," "Self-Sacrifice," "Drawing in Fine," "Out of the Old Year Into the New" and "Heart Lessons."

Major Stanton was born at Alexandria, Va., June 30, 1834. He was a son of the Hon. Richard H. Stanton, the famous barrister and law writer of this city. Few men in this country have achieved more deserved distinction as a lawyer than did the elder Stanton. It seemed but natural that the younger should follow in the footsteps of his sire and become versed in the pages of Blackstone.

Major Stanton's mother was a Miss A. Throop, daughter of the Rev. P. Throop, a Methodist minister of much renown. When young Henry became old enough he was sent to the public schools and later to Maysville Seminary. He was a precocious child and learned with remarkable rapidity.

Later he was sent to Lagrange College, and upon finishing the course there went to Shelby College. He remained here for several years, when he secured a cadetship at West Point and later he was given a position in the Treasury Department of the United States. He was intimate with the Hon. James P. Guthrie, who was at that time Secretary of the Treasury, and it was through him that the young man was given the position.

He proved to be a valuable man and was later promoted to a position in the Census Bureau Department.

When Franklin Pierce was elected President of the United States he was given a position in the Pension Office, which position he held for several administrations. Finally he returned to Maysville to accept the editorship of the Maysville Express. In 1855 he began the study of law and in the following year was admitted to the bar. He gave up his newspaper work entirely and devoted himself exclusively to the practice of law. He was associated with his father until 1860, when he moved to Memphis, Tenn., continuing the practice of law. At the breaking out of the war he resolved to fight with his section and raised a company of men. He joined General John S. Williams at Prestonburg and served on his staff until 1864. He later became an

Adjutant General and subsequently served in this position under Generals John C. Breckinridge and John H. Morgan.

His military career was one continual round of triumphs. He was so brave that he became reckless. In the thickest of battle he was often known to go to the front and lead his men in the charge on the enemy. He was in over fifty engagements during the war and also commander of a battery at Fayette Court house. It was here that he showed to the best advantage his great valor. Once all of his men were slain and he alone left at a gun. He never wavered but kept loading and firing on the enemy until reinforcements arrived.

For his gallantry he was promoted to the rank of Major and was serving under Gen. Johnson when the latter surrendered at Greensboro, N. C.

At the close of the war he again assumed the practice of law, but gave it up again to become the editor of the Maysville BULLETIN. He subsequently became Deputy Insurance Commissioner of Kentucky and later was on the editorial staff of the Yoeman.

Besides being an editor of pronounced ability, Major Stanton has found time to contribute to nearly all the periodicals printed in this country. His productions have always been eagerly sought after and much prized when secured. The last few years of his life he devoted to writing poetry.

In politics he was a staunch Democrat. He was strong in his convictions and always took an active part in politics. He was for many years a communicant of the Episcopal Church and was a constant attendant at the services.

He was married in 1856 to Miss Martha R. Lindsey. She was a daughter of Alexander Lindsey, of Montgomery County.

The death of Major Stanton will be a great shock to his large circle of friends, which extends from the great lakes to the Gulf of Mexico and from the Atlantic to the Pacific. He had a great knack for making friends, and when once on his list you were there to stay. He had a kind word for all and his simple style won him admirers by the score. He was a diligent student and studied not in vain, for his great culture was proof of what he retained. In Maysville he had a wide acquaintance, and when his death was learned it was generally regreted.

Death of Mrs. Rosa Bell Bartley.

Mrs. Rosa Bell Bartley, wife of G. R. Bartley, of the Fifth ward, peacefully breathed her last Monday evening at 6:25. Mrs. Bartley has been a sufferer for more than five years and at last succumbed to that deadly disease, consumption.

Mrs. Bartley has been a faithful member of the Episcopal Church for twenty years and was the loving mother of five children, three of which live to mourn her loss.

Deceased was fifty-six years of age, and was born in Ohio, but the family later moved to Central Kentucky, from which point they moved to Maysville.

The funeral services will be conducted by Rev. D. D. Chapin from the family residence on Walnut street to-morrow afternoon at 2 o'clock. Burial at Maysville Cemetery.

ED. ALEXANDER offers special rates to physicians against accidents. Aetna Life.

A New Motor Cycle.

PORTLAND, IND., May 7.—Elwood Haynes and family, of Kokomo, spent most of the week visiting Portland relatives. In that there is nothing remarkable, but the fact that they made the trip in a horseless carriage or motorcycle, invented by himself, covering the entire distance, over seventy miles, in less than six hours, traveling over Indiana roads, which are generally pretty bad, taking them as they come, dirt roads and all, establishes a record for motor cycle riding. It cost just \$1.12 for fuel for the round trip of 140 miles, which was made without a stop or accident. To have made the same trip by rail would have required an expenditure of \$22.28 fare for the six persons. The little carriage carries a six-horse engine and is smaller than an ordinary surrey. It has pneumatic tires.

Still Springing Surprises.

A wedding, both parties to which are well-known in this city, has come as a surprise over the people of Vanceburg. Over a week ago Mr. Matt Bagby, clerk of the steamer Stanley, and Miss Stella Agnew took a little trip to Cincinnati, and while there were quietly married. The news did not leak out until Friday, and the young people are now receiving the congratulations of their friends.

A GENTLEMAN from Portsmouth was here the other day engaging the services of some of the late employes of the Maysville shoe factory.

MR. ANDREW CLOONEY, who for several years was in the employ of Mr. John Balenger and other jewelers of this city, will soon open an establishment on his own hook in the White building, adjoining the First National Bank. Mr. Clooney is a skilled workman and that fact, coupled with his popularity, will doubtless insure success to the new concern.

FRIDAY evening about 5 o'clock Bert Likens, a young boy who stays on the wharboat at Ironton, saw a body floating past in the river, which he went after and landed at the lower end of the boat. It was found that the body was very much decomposed. It was thought to be the remains of an engineer by the name of John Sinnott, of Russell, who has been missing for some four weeks.

SINCE the vessels of Capt. Sampson's fleet have captured so many prizes there has been no trouble in getting men for the navy. For a long time it was impossible to secure recruits, and officers were sent to hunt them up among the fishing villages of New England and other points along the coast, but now they are tumbling over each other to enlist, because they have an idea that everybody in the fleet is going to be rich from prize money.

Yellow Jaundice Cured.

Suffering humanity should be supplied with every means possible for its relief. It is with pleasure we publish the following: "This is to certify that I was a terrible sufferer from yellow jaundice for over six months, and was treated by some of the best physicians in our city and all to no avail. Dr. Bell, our druggist, recommended Electric Bitters; and after taking two bottles, I was entirely cured. I now take great pleasure in recommending them to any person suffering from this terrible malady. I am gratefully yours, M. A. Hogarty, Lexington, Ky. Sold by J. Jas. Wood, druggist.

HE WANTS TO "JINE."

A Rural Youth Walks a Long Distance With the Hope of Getting in the "Army."

A young fellow about five feet six tall struck Maysville yesterday morning and told several gentlemen whom he met that he wanted to "jine" the army. He had no baggage, but he wore a tattered and torn home-made straw pile about as big around as the head of a tobacco hog-head. He said he walked all the way from Maddox, O., wherever that is.

Somebody referred him to the recruiting office at 121 Market street, and he was taken in hand by Joe O'Donnell.

"What is your name?" queried Joseph. "Oliver Nelson Shelton," replied the youth, "but pap always calls me 'Ol.' fer short."

"How old are you, Oliver?" "Wall, the last time pap took me to Manchester I wuz 'bout fifteen 'en I guess that wuz nigh onto four year back."

"That would make you nineteen, then," quoth Joe.

"Recon that's about it."

"Can you shoot?"

"Wall, I'm 'bout as pert as any of the other fellers in our neighborhood, en if you uns 'll take me along and give me my smooth-bore our folks won't be uneasy 'bout me."

"Maybe your family wouldn't like it if we took you away," chimed in Germany Eitel.

"I reckon you ain't very well acquainted over 'bout Maddox, are you?" asked Oliver.

Old Bismark admitted that such was a fact.

"Why pap wants to "jine," and he was gettin' ready to foller me when I left."

The boys took his name and promised to let him know when they would need him.

THE undivided two-thirds interest in the lot on Second street, known as the Pyles Warehouse lot, was knocked down to Judge Newell yesterday afternoon at commissioner's sale. It brought \$1,030.

CAPTAIN GEORGE TUDOR, who has been living on Front street for fourteen years, has moved to a more healthful clime and is now living at 212 Castoe street. Mr. Tudor tells us that he has been nearly drowned five times and on two of the occasions he was thought to be beyond help. To his many narrow escapes from death in that shape he attributes his great dislike for water.

No one who passes up Second street, in the vicinity of the Bee Hive, can fail to notice with what exquisite taste the show windows of that establishment are decorated. It matters not on which side of the street you pass, the prettiness of the wares displayed are sure to catch one's eyes. Especially attractive do they appear at night when brilliantly illuminated by the many electric lights. The writer was particularly impressed with the center pair, whose richness surpasses anything in the way of window dressing we have ever seen in Maysville.

St. Thomas, West Indies, May 10.—The Spanish cruiser Isabel II, an iron vessel of 1,130 tons displacement and carrying a crew of 130 men, arrived here at 6 a. m. Her commander communicated with the Spanish consul at this port and the cruiser cleared immediately, destination unknown. No news has been received here of any engagement Sunday.

Y. M. C. A. Matters.

There are some young men in our city who hold fast to a good thing when they get a chance.

Sunday afternoon in the parlor of the Y. M. C. A. quarters a most delightful gospel meeting for men was held, talks by young men to young men; helpful, short and interesting. Varied? well I think. Music and singing. Why didn't you hear about it? Mr. Allen D. Cole was leader and his talk was excellent, then some others gave experiences, and prayers were offered, sort of a heart to heart, sympathetic sort of a time which comes only where Jesus and His servants are together. Miss Suzanne Hall presided at the piano, and her ability to accompany was again evinced. Mr. Hall Strode sang delightfully a solo touchingly sweet and well calculated to be helpful. It is certainly a cheerful and beneficial place to spend the Sabbath. There no cares infect, nor troubles assail. Try it once and see. A. H. LAMB, Secretary.

A CARD on the outside of office door says: "Gone to lunch. Be back in ten minutes." And the man will be there on time. That is, for some days, weeks or even months, he will. Then he will be at home occasionally for a day. He'll tell you he had a headache—a turn of cholera morbus, or maybe he'll say he had a lump in his stomach and felt too miserable to move. The lump was probably two or three ten-minute lunches condensed.

The man who "bolts" his lunches will find Dr. Pierce's Pleasant Pellets the best friend he ever met.

There is no case of biliousness, constipation, indigestion, "heart-burn" or any of the rest of the night-mare breeding brood, that these little "pellets" will not cure. They cure permanently. Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 108 page "Common Sense Medical Adviser," profusely illustrated.

THE EXCELLENCE OF SYRUP OF FIGS

is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP Co. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP Co. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP Co. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company—
